

Fort Saskatchewan Community Hospital Foundation

Enhancing Health Care in our Community

PRACTICE READINESS CENTRE PROJECT

Simulation is a training technique which enables learners to practice and master individual and team skills to enhance the quality of care and improve patient safety.

Benefits of Practice Readiness Centre:

- For all staff and physicians
- Develops confidence in safe learning environment
- Freedom to learn from mistakes without causing patient harm
- Train and prepare for high risk situations
- Can bridge the gap between text book learning and real life situations
